Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/753,844	Applicant(s) HOLLAR, MARK A.	
	Examiner HELEN SHIBRU	Art Unit 2621	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. The amendments, filed on 11/09/2009, have been entered and made of record.
Based on Applicant's amendment, restriction requirement is applied.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4, 7-18, 21-30, 33-55, 58-62, and 65-71, drawn to encoding an analog signal comprising an indication of allowing subsequent digital storage, and an indication of how long to allow subsequent digital storage, wherein the indication of how long to allow subsequent digital storage is a watermark located in the modified an analog signal including an encoded number of digital storage duration units, classified in class 386, subclass 94.
 - II. Claims 72-76, drawn to encoding an analog signal comprising an indication of allowing subsequent digital storage, and an indication of how long to allow subsequent digital storage, wherein the indication of how long to allow subsequent digital storage is a pointer to video scan lines 21-22, classified in class 380, subclass 200.
3. The inventions are distinct, each from the other because of the following reasons:
Groups I-II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that

Art Unit: 2621

the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case the method and apparatus of encoding an analog video signal as claimed in group I independent claims, does not require the feature of 'the indication of how long to allow subsequent digital storage is a pointer to video scan lines 21-22' as claimed in group II claims.

Similarly the method and apparatus of encoding an analog video signal as claimed in group II claims, does not require the feature of 'the indication of how long to allow subsequent digital storage is a watermark located in the modified an analog signal including an encoded number of digital storage duration units' as claimed in group I claims.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HELEN SHIBRU whose telephone number is (571)272-7329. The examiner can normally be reached on M-F, 8:30AM-5PM.
